Propeller strike and firewall wrinkling

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On Thursday, March 23, I took off at KTDf from runway 6 to practice solo touch and go's. I listened to KTDf's AWOS-3 and noted that the wind was coming from 100@06kts. I turned final back to runway 6 in a stable approach. When I rounded out over the runway, I felt a big push from behind and came down on the runway causing a propeller strike and damaging the firewall of the plane.

When I taxied back to the ramp, I checked the AWOS-3 again and the winds had changed, coming out of 210@06kts.
