

# NATIONAL TRANSPORTATION SAFETY BOARD PILOT/OPERATOR AIRCRAFT ACCIDENT/INCIDENT REPORT

This form to be used for reporting civil and public aircraft accidents and incidents

## BASIC INFORMATION

### Accident/Incident Location

Nearest City/Place: Lagrangeville State: NY  
 ZIP: 12540 Country: United States  
 Latitude: 41:42:27 Longitude: 73:44:17  
*(Enter in decimal degrees or degrees:minutes:seconds)*

### Accident/Incident Date/Time

Date: 04/02/2017 Local Time: 1:30  
*mm/dd/yyyy* Time Zone: Eastern

Collision with Other Aircraft: ☐ Midair ☐ On-ground ☒ None

## AIRCRAFT INFORMATION

Registration Number: 734SN

Manufacturer: Cessna

Model: 172N

Serial Number: \_\_\_\_\_

Year of Manufacture: \_\_\_\_\_

Amateur-Built: ☐ Yes ☒ No If Yes: ☐ Kit/Plans ☐ Original Design Make: \_\_\_\_\_

☐ IFR-Equipped and Certified  
☐ Commercial Space Flight  
☐ Unmanned Aircraft

Maximum Gross Weight: 2300 lbs

Weight at Time of Accident/Incident: 2250 lbs

Number of Seats: 4 Flight Crew Seats: 1

Cabin Crew Seats: 0 Passenger Seats: 3

Number of Engines: 1

### Category of Aircraft

- ☒ Airplane
- ☐ Balloon
- ☐ Blimp/Dirigible
- ☐ Glider
- ☐ Gyroplane
- ☐ Helicopter
- ☐ Powered Lift
- ☐ Rocket
- ☐ Ultralight
- ☐ Unknown

### Type of Airworthiness Certificate

*(Check all that apply)*

#### Standard

- ☒ Normal
- ☐ Aerobatic
- ☐ Balloon
- ☐ Commuter
- ☐ Transport
- ☐ Utility

#### Special

- ☐ Restricted
- ☐ Limited
- ☐ Provisional
- ☐ Special Flight
- ☐ Experimental
- ☐ Special Light-Sport
- ☐ Experimental Light-Sport

☐ Certificate of Authorization or Waiver (COA)  
☐ None ☐ Unknown

### Landing Gear

*(Check all that apply)*

☐ Retractable

☒ Tricycle

☐ Amphibian

☐ Emergency Float

☐ Float

☐ Hull

☐ Other Launch/Recovery System

☐ None

☐ Tailwheel

☐ High Skid

☐ Skid

☐ Ski

☐ Ski/Wheel

☐ Unknown

### Engine Type *(Select one)*

- ☒ Reciprocating
- ☐ Turbo Shaft
- ☐ Turbo Prop
- ☐ Turbo Jet
- ☐ Turbo Fan
- ☐ Electric
- ☐ Liquid Rocket
- ☐ Solid Rocket
- ☐ Hybrid Rocket
- ☐ None
- ☐ Unknown

### Fuel System Type *(Reciprocating)*

- ☒ Carburetor
- ☐ Fuel-Injected

### Last Inspection Type

- ☐ 100-Hour
- ☐ AAIP
- ☐ Annual
- ☐ Continuous Airworthiness
- ☐ Conditional Inspection
- ☐ Unknown

Date Last Inspection: \_\_\_\_\_  
*mm/dd/yyyy*

Airframe Total Time: \_\_\_\_\_ hrs  
 hours measured at *(Select one)*  
☐ Last Inspection ☐ Time of Accident/Incident

### Type of Maintenance Program *(Select one)*

- ☐ Annual
- ☐ Conditional (Amateur-built only)
- ☐ Manufacturer's Inspection Program
- ☐ Other Approved Inspection Program (AAIP)
- ☐ Continuous Airworthiness
- ☐ Other, specify: \_\_\_\_\_

### Description of Fire Extinguishing System

- ☐ None
- ☐ Specify: \_\_\_\_\_

### Propeller 1

- ☒ Fixed Pitch
- ☐ Controllable Pitch
- ☐ Ground Adjustable

Manufacturer: \_\_\_\_\_

Model: \_\_\_\_\_

### Propeller 2

- ☐ Fixed Pitch
- ☐ Controllable Pitch
- ☐ Ground Adjustable

Manufacturer: \_\_\_\_\_

Model: \_\_\_\_\_

ELT Installed: ☒ Yes ☐ No

If Yes:

ELT Manufacturer: \_\_\_\_\_

Model or Part No.: \_\_\_\_\_

TSO No.: ☐ C91 (121.5 MHz) ☐ C91a (121.5 MHz)  
☐ C126 (406 MHz)

Was ELT still mounted in aircraft? ☒ Yes ☐ No

Was ELT still connected to antenna? ☒ Yes ☐ No

Did ELT Activate? ☐ Yes ☐ No

If activated:

Did ELT Aid in Locating Aircraft? ☐ Yes ☐ No

If not activated:

- Indicate Reason:
- ☐ Impact Damage
  - ☐ Fire Damage
  - ☐ Battery Expired/Damaged
  - ☐ Unknown

### Additional Equipment *(Check all that apply)*

- ☐ ADS-B
- ☐ Airframe Parachute
- ☒ Angle of Attack Indicator
- ☐ Autopilot
- ☐ Data Recorder
- ☐ Electronic Flight Bag or Handheld Device
- ☐ Electronic Multifunction Display
- ☐ Electronic Primary Flight Display
- ☐ Handheld GPS
- ☐ Heads Up Display
- ☐ Onboard Weather
- ☐ Satellite Tracking Device
- ☒ Stall Warning System
- ☐ Video Recording Device
- ☐ Other, Specify: \_\_\_\_\_

| <b>Description of Damage to Aircraft and Other Property</b> <i>(Use additional sheet if necessary)</i><br><br>Propeller broken off, front landing gear broken off, damage to both wings, broken windshield, damaged vertical stabilizer.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                        |
| <b>NARRATIVE HISTORY OF FLIGHT</b> <i>(Please type or print in ink)</i><br><br>Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                        |
| <p>I arrived at Schenectady County airport at around 10:00 am where the aircraft is based. I pulled the aircraft out of the hangar and thoroughly preflighted the aircraft. After the preflight was complete, I walked to the FBO on the field and asked for the tanks to be topped off, as I knew the flight ahead would be long and wanted to make sure we had plenty of fuel. My parents and French exchange student, Louis, arrived at 10:30 am and we began to settle into the plane.</p> <p>We left Schenectady County Airport at around 11:00 am and had the intent of flying directly to the Hudson River Corridor, flying down and around the statue of liberty, returning to the Tappan Zee Bridge, and flying to Minute Man Airport in Massachusetts. From there, we would return back to Schenectady. As we got nearer to New York City, I suggested we land so that everyone could use the bathroom, as we had a long flight ahead of us. I selected Sky Acres airport and landed runway 17 after having entered the pattern mid-field on the left downwind of the runway. I made calls entering the pattern, turning base, and when I was short final. I successfully touched down the aircraft and everyone used the bathrooms. We then departed and flew down to and entered the Hudson River Corridor VFR exclusion. Upon flying around the Statue of Liberty and starting our flight north along the island of Manhattan, my mom, seated behind me on the back-left side of the aircraft, informed me that Louis, seated next to her in the back-right seat of the aircraft, had gotten sick and thrown up. We discussed whether or not we should return directly to Schenectady or if we should stop at an airport nearby so that Louis could compose himself. We agreed to land at Sky Acres again, as we knew it would have a bathroom and had been there before.</p> <p>When Sky Acres came into view, I determined that a straight in approach would be the best for our current flight path. I had come in a bit fast the first time into the airport, so I focused on coming in a bit slower and extending the final. Once the flaps were fully extended, I felt that the aircraft was descending at too quick a rate and added some power. I was coming in around 65 knots and the aircraft was nearly down when the crosswind began to blow us off centerline. I then tried to add more power to get our speed up so that I would have more control. However, I was already behind the power curve and the increase in power did little. The aircraft was blown off centerline and towards the edge of the runway and we were rapidly losing speed. The stall warning horn sounded and the nose of the aircraft dipped, pointing towards the drainage pond where it ended up making impact. The plane flipped over onto its wings and came to a rest. All passengers successfully undid their seatbelts and exited the aircraft on their own. Only one passenger, Louis, had a minor head injury. After the accident when help had arrived, as much stuff as could be was removed from the aircraft and the police took depositions from all passengers. Louis was brought to the Mid-Hudson Hospital to be checked.</p> <p>It should be noted that while a flight plan was prepared, it was never filed. Also, all weather was gained from aviationweather.gov. Also, Todd Scaccia, the owner of the aircraft, rents only to certified pilots who have been checked out in a Cessna 172 before. I had been checked out in early November and the pilot certified that I was able to fly the Cessna 172. I have rented a number of times with Todd before.</p> |                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                        |

**RECOMMENDATION (How could this accident/incident have been prevented?)**

## Operator/Owner Safety Recommendation

I think that if I had come in a little faster that I would have been able to make this landing. I think this because there were wind gusts at the airport and the predinante direction resulted in a cross wind across the runway. By coming in as slow as I did, I was unable to have the control surface authority necessary to prevent being blown off the runway.

**MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)**

Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No  
(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
