NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Taxiing into airport to pick up a patient at Richfield Airport at 2200. The ambulance was parked by the FBO so decided to taxi to the ambulance. Approaching the area I decided to turn the aircraft around and face back out towards the runway so as to not have to do so after loading the patient. During the turn my left winglet impacted an unlighted cyclone fencing fence post.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

This incident could have been avoided by not making a last minute decision to taxi to the ambulance and making a 180 degree turn. Clearing the turning area better and making a mental note of obstructions before turning would have also prevented this incident.
