

Departed OSL about 6:30 to The North at
400' MAKE LEFT turn to the West.

Climbed to 1000' and did my check list.

Realized how close to New Century Airport and tuned
radio.

At This time I saw the engine power winding down
~~from~~ Turned on boost pump, check mags AND MIXTURE.
No help. Called The Tower and said MAYDAY twice
and where we we going to land.

I swapped fuel Tanks ~~on~~ with no help.

Spotted A field with wires on the EAST end

I lined ^{SPEED} up and put in on The ground above
stall. Three bumps and stopped. Front seat got
right out saying "hurry". I Than turned off The MASTER
switch and exited the Mooney
