Mr. Gerhardt,

Mr. Brown's statement:

Wallace Brown's written statement.

On Saturday 4/6/17, at about 2045, I Wallace Brown PIC, and passenger Cindi Bourne landed at Spanish Fork, UT Airport, U77, runway 30. After flare and touching down, about half way through the rollout I lost control of the aircraft and ground looped to the right. No injuries incurred. Damage to aircraft, prop strike, landing gear and attachment points, left wing, left tire/wheel, fabric, and exhaust bent. END.....

Not much to say, as I am sure it happened within a second.

Let me know if you need anything else.

John
