Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Engine Ripped off w/ prop, both left & right wings are destroyed & landed upside down

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed Dux @ 10:30. Sprayed some wheat w/ fungicide about 10 miles SE of town. I finished those fields then went to Gibsons Farm about 6 miles NW of town. I started spraying at about 11:25. I was almost empty. I jumped the sprinkler then soon after a gust of wind or wind shear caused my right wing to go up while my left wing got into the wheat. The wheat sucked the wing in and caused the airplane to start flying sideways. The aircraft impacted the ground with the right wing initially then flipped over and slid for about 30 yds. @ 11:30pm. I pulled emergency handle & kicked out the door to escape.
