Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Prop strike on runway. Additional damage unknown.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On May 14, 2017 at approximately 1245 CST, I entered a left downwind to runway 17 at Clarksville Regional Airport (KCKV). The winds were calm and there was no significant weather. There were no known maintenance problems with N53460.

Abeam the runway threshold I reduced power to 1500 RPM and performed landing checks. I believe I turned base too early and this caused me to be high on the approach. I reduced power but also nosed the plane over in order to descend. This, I believe, caused me to be too fast when I flared for landing. I ballooned up and began to porpoise over the runway. This resulted in the prop striking the ground. I had no passengers and I did not sustain any injuries.

I suspected there was a problem and taxied to the ramp, shut down and inspected the airplane. Upon seeing the damage, I immediately called a Wings of Eagles (owner of plane) CFI and reported the incident.

These are the events as I remember them.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I should have done a go around. When in doubt, go around.
