NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

When I arrived to the hanger where the plane was located I pulled the plane out and started my preflight check. Once preflight was completed I checked the weather and the weather dictated that I use RW 020. I did a radio check then proceeded to RW 020. After run up I departed RW 020 around 920a to complete Touch & Go's. I was on my 3rd and final Touch & Go for a Full Stop. On my last leg the plane is in landing configuration. I got the plane down to the beginning of RW 020. While flying down the RW a strong wind from the left blew me from the center of 020 to the far right and I was unable to regain control of the airplane which resulted in me hitting a taxiway sign and soon after the plane hit the sign it flipped completely over
