NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I was landing on runway 20 at KHFD at approximately 1:00 p.m. on Saturday, June 10th returning from a trip from the north. I was cleared to land right base for runway 20. I set up a stabilized approach. I landed on the runway and the aircraft bounced. After the bounce and my attempt to correct, the propeller hit the runway. After I stopped the aircraft I immediately called the tower and told them that I believed I had just had a prop strike, and after determining I could safely taxi the aircraft I taxied off the runway.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I am a relatively new pilot. I had not experienced a bounced landing like this prior to this event. This accident could have been prevented if I had corrected (nose up) more quickly after the bounced landing and/or utilized additional strategies to avoid the bounced landing prior to the prop strike. I will be reviewing all of the factors that contribute to bounced landings with a CFI through follow-up training.
