Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

6' of the right wing tip and aileron bent up 2 to 3 inches and skin on the right horizontal stabilizer was wrinkled.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

At 9:30am Take-off ASOS is reporting winds 030/5.

Normal take-off and flight 8 miles southeast of Rexburg.

Returning to KRXE at 10:15am ASOS is reporting winds 050/15G21.

After entering a left hand pattern for runway 35 the ASOS is now reporting winds 050/11G21.

I made a very normal App. and landing on runway 35, power off, air speed bleeds off, and the tail comes down nicely.

As I'm slowing down a gust of wind comes out of the east and blows the tail and turns the airplane so that now I'm heading northeast.

I work the rudder enough to keep the airplane on the runway, but now the airplane is headed to the northwest and off the runway.

Now the tail starts to come around in a left turn.

Now the airplane is headed southeast and almost stopped.

Another big gust of wind lifts the left wing up and the right wing goes down and hits the ground.

After the gust of wind goes down the airplane rocks back on to the main landing gear.

I shut the engine off, fuel off, and master switch off.

I then got out of the airplane to look at the damage.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I should have had more time with a instructor in that airplane in cross wind landings.
But more important I should have flown the plane to a airport with a runway that was more in line with the wind.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)
