

Christian Morales

Federal Aviation Administration

San Antonio, TX

I was leaving the Airport pulling a trailer with a New Holland Tractor. Upon approaching the runway, I looked both ways and seen no air craft. It was very cloudy. I looked down the runway before I began to cross. While I was crossing the runway I seen the air craft approaching and I gave the truck full throttle. I was almost across the runway when I felt the air plane hit the very end of the trailer.
