Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

The Aircraft has damage to the leading edge of the wing and the prop is damaged as well.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On June 24, 2017, I departed Morgan, Utah (42U) Airport to meet a glider in Heber, Utah (36U). I departed Morgan a little after 1700. I climbed to 500 feet AGL after departing for cruise flight. My speed was around 90 to 100 miles per hour in level flight. I was following highway 84 to Heber City when I came into contact with power lines that were strung across the canyon. After, I immediately turned back for Morgan where I performed a fly over for the aircrafts inspection. I then landed the airplane safely and was without injury. I contacted Ray with Rocky Mountain Power. He told me the power lines were decommissioned and no power was effected.
