To: Hifni Adzan Yvette Herrera

We started off with soft field takeoff and while we were on downwind we followed the GUMPS checklist and verified the landing gear was down. My instructor checked the right and i checked the left. While on base we verified once again with the GUMPS checklist and also checked the landing lights with green light. On short finals we had 70 kts and maintained all the way to touchdown, we touched down and the main right gear collapsed after touchdown smoothly and my instructor took controls and safely maneuvered the airplane off the runway.

We took off about 2.15 PM and after 3 take off and landings with all full stop the accident happened
