Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Damage limited to aircraft's left wing, leading edge between landing/taxi light and wing tip.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I was enjoying a pleasure flight in the local area with two family friends. We departed KRBG at approx. 10:05 hrs., departing runway 34, which is the calm wind runway. No issues to note on departure.

After touring the local area, and returning from the west at approx. 11:25 hrs, I entered a 45 degree, left down-wind for runway 34, standard approach. I conducted a touch-n-go, remaining in the pattern following PTA. On down-wind, abeam the numbers, I reduced power and lowered flaps 10 degrees. As this point, I did not observe any issues of concern, including wildlife.

Immediately upon beginning a left turn to base, a flock of about 10 Turkey Vultures appeared slightly beneath, and slightly to the right of the aircraft nose, extremely close in distance. The birds appeared so quickly, I was unable to take evasive action, believing I would strike one or more birds with the right wing. As the birds spiraled upwards, missing the right wing, I saw a tint of red out of my left eye and identified the object as a Turkey Vulture heading straight towards my left wing. The bird impacted the leading edge of the left wing and disappeared. This incident occurred in a matter of a few seconds, and the impact was audible and palpable through the aircraft structure.

I noticed an appreciable drag on the left side, but was only able to see some damage on the left wing from my position. I made a radio declaration of the strike, and announced I would be on direct final. No other aircraft were in the traffic pattern.

I landed the aircraft safely without further incident and notified the owner immediately upon arrival. There were no resulting injuries or property damage.
