Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On 28 June 2017 N774D was ground looped on RWY 22 at White Sands Alamogordo Regional, NM. It happened between 1300 and 1330 hrs local time. I was receiving instruction for a tailwheel endorsement from Mr. Kevin Dunshee, an experienced Tailwheel Flight Instructor. This was my third flight with Mr. Dunshee and we were practicing 3-point and wheel landings. AWOS reported the winds to be 250 @ 5 before we taxied to RWY 22. The ground loop happened on my 7th landing of the day which was also my 4th wheel landing. Approximately 5 minutes prior to this landing, 2 x Army Black Hawk helicopters flew a low approach to RWY 22, coming to a stop (Still hovering) before taxiing to the local FBO for fuel. Kevin and I planned to extend our pattern in order to mitigate vortices from the rotors. The wheel landing was straight, the tailwheel was brought to the ground and we were on landing rollout (approx. 35 mph according to my instructor) when all of a sudden, my tail swung left. I immediately applied left rudder, and brake to try and keep my nose from rotating right but it was too late. My left main wheel side loaded on the asphalt and the plane proceeded to rotate, bouncing 3 or 4 times along the way. On the second or third bounce, the windscreen cracked and the doors came off the top hinge. We came to a rest almost facing the opposite direction (almost 180 degrees) and I immediately shut down the engine. We got out of the airplane and called the FBO and Airport Manager's office. Fortunately neither the prop nor wing struck the ground but the left spring gear was badly bent and the side load cause some creasing of metal around the gear legs. The Airport Manager and an employee helped us tow the airplane back to my hangar.

Fortunately nobody was hurt. Mr. Dunshee advised me to call the FSDO and my insurance company which was the first and second thing I did once we got the airplane in the hangar. I spoke with the ABQ FSDO manager first and then I got a call from Mr. Gary Medina minutes later.
