Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I came from my apartment to school at 06.30 AM. After checking the local weather at KFTW, I started the preflight for N82629 at 06.45 AM, after checking the airplane was good to fly. I started the engine tested my brakes and started taxing. Then, I went to spot 1 and report for requesting taxi to Runway 16, I went to R16 via G-A and I arrived in the Run Up area. I did run up check list and pre take off check list as well. I reported to tower to get permission for takeoff and requesting to close traffic for traffic pattern. I take off at 07.25 AM. I make a right traffic for Traffic Pattern 17 and did 7 landings, everything was good. On my last approach at 08.13 AM in R17. I had a bounce one time and then I tried to recover my landing, the propeller stuck the ground, I stopped the airplane, I called tower I had an incident and turned off the Engine and Masters in the airplane, evacuated and waited for help. Meacham Ops came in and later the tow from the school came in and brought the plane back and I came back to the school with them. Please feel free to contact me if any information is needed. Thank you.
