NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Events of the accident

I was approaching the strip from the east. I did not realize the sun was right down the runway and as low as it was. As I reached short final a down draft caused me to start descending, I added power and pitched up slowly. The sun came lower and directly into my eyes blocking my vision of the runway. I landed short, striking the runway end, a upgrade of about 20' tearing off the gear, impacting the ground with the propeller and wings, spinning to the right and coming to rest just off the right hand side of the runway.

I was alone and uninjured
