Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Propeller tips curled back. Sheet metal aft of the firewall wrinkled. Firewall stiffening members creased. No property damaged noted.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

While flying two EAA Young Eagles passengers in VFR conditions around Sparta-Miller 8D4, I had a very hard landing approximately 10:30am on Rwy-25. The plane bounced and I performed an immediate go-around to land normally. Nobody was hurt. After taxiing to the ramp and deplaning passengers I picked up two more, intending a brief walkaround before getting back inside. While I buckled-in the new passengers, a nearby pilot noticed the wrinkled skin aft of the firewall on the right side. I then walked around the nose, finding similar wrinkling on the left side and damage to the propeller tips. I immediately canceled further flights.
