

Event at 8/13/17

ON 8/13/2017 Harold Schaperkotter and I went flying. I decide to go visit Ray Williams TN 77. We landed TN 77 - Ray was bushhogging - Got back in the Plane - I did 3 touch goes @ TN 77 - Then we

Flew around and Returned to IVXN. Landing 02 ON final Approach all seemed well - Landed @ 70 (Appx)(mph) I Flared a little high - Bounced - and plane veered to left. Applied braking and was slowing down - Very bumpy -

They Plane did unexpected 180° Turn - Came to a stop Right wing on the Ground and No Landing gear.

NO one hurt - Had 4 point Harness on. Got out of Plane Carried Harold to his car my House. Returned to Air post
