Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft clipped tree and made contact with the ground, 3 point landing ; incurring significant structural damage

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

1. Began the flight at 8:30 am after completing the preflight check. I was the sole occupant of the aircraft.
2. Completed one takeoff and landing at 4B8; then flew to Barnes (BAF), Simsbury (4B9) and Hartford (HFD) with uneventful full stop landings at each airport. I was in contact with ATC throughout.
3. During the return flight to 4B8, I asked for and received an airport advisory, then entered a standard left down wind leg for runway 02.
4. The airplane bounced on touchdown and I executed a go around by increasing to full power, setting carb heat to cold, and performing the initial incremental retraction of the flaps
5. The aircraft ended up left of center line headed towards the grass median/taxi way & parking area
6. The aircraft wasn't gaining altitude so I started looking for a spot to execute an emergency landing.
7. I came in contact with a tree and the next thing I knew, the aircraft was on the ground
8. I immediately exited the aircraft with no significant injuries

Finally,

I am especially thankful that no one on the ground was hurt.

My sincere thanks to all the people that came to my aid and to the staff and owners of Interstate Aviation for supporting me and my wife.
