NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

By prior arrangement with SC Avionics Services, I had planned to fly to Orangeburg to have my radio checked. Accordingly, on the morning of 09/28 I drove to Ridgeland, SC where the aircraft was hangared at 3J1. After a thorough preflight inspection of the aircraft to include checking tire pressure, oil level and fuel level (L 13 and R 17 gals. usable fuel) and a check of weather and conditions at Orangeburg, I departed 3J1 at approximately 1000 Hrs local time. The flight to KOGB at 2000' AGL was smooth and uneventful as winds were calm to light and sky was clear. Approximately 10 miles out from Orangeburg I called traffic, announced my position and that I was inbound. I then called AWOS and determined that I would use runway 05 to land. At about 3 miles out with runway in sight, I announced my position and that I would be joining a right downwind for 05. I did then join the downwind for 05 at 1200', trimmed my airspeed for 70 mph and made calls as I continued my descent and turned onto the base and final legs. As I turned final at 700' I lined up on the center line and made what seemed to be a normal descent. As I touched down on the main gear, however, I appeared to lose my right tire/wheel which caused the aircraft to dip and skew sharply to the right. We continued crablike sideways down the runway a situation which appeared to cause the left wheel and possibly the nose wheel to buckle. When we came to a halt I turned the fuel selector to off and turned off the magnetos. As smoke was visible, I exited the aircraft and could see flames from under the cowling. Moving away to a safe distance I could only watch as the fuel tanks ignited and exploded. As I headed toward the FBO, the airport manager came by in a golf cart and gave me a lift to the FBO from where I watched the fire department deal with the fire.
