RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Based on eye witnesses + passenger + myself, I done everything by the book. In my opinion, it was a freak accident. The only thing I might have done different was to pick up airplane a different day.

Subject: accident

I, Jeff Casper woke up at 6:15am on Oct. 8, 2017. I got dressed, had a cup of coffee, and left the house at approximately 6:30 with my girlfriend Wanda. We drove to Black River Falls Airport(KBCK) to meet up with Brad Honish and Dale Klevgard and his wife to fly to Voyager Village Airstrip(9WN2) for breakfast. The plan was to ride with Brad in his plane to Marshfield to get my plane which just got a 50 hr oil change. The fog was thick that morning so we sat and waited it out until about 8:00 when it cleared off. We decided to go straight to Voyager so we wouldn't be any later to get up there.

We took off from Black River about 8:15 and landed at Voyager about 9:20. We waited for Dale and his wife to land and we all had breakfast.

We left Voyager about 11:15 and Dale and his wife went straight back to Black River and my girlfriend and I rode with Brad to Marshfield(KMFI) to pick up my plane, N9664Q. When we landed, it was approximately 12:45. I did a pretrip inspection, listened to AWOS and we left Marshfield to go directly to Black River Falls. We had winds about 15-17 knots gusting and variable when we got to Black River.

We did a left handed traffic pattern to land on runway 26. Winds at that time were approximately out of 190-220 at about 17 knots. I felt very comfortable landing in a cross wind because I had landed in strong crosswinds many times.

We were crabbing coming into runway 26, I had flaps at 20 degrees, about 65 knots full left rudder and ailerons to the left to compensate the wind. We landed on the left tire first as I was holding left aileron, and all of a sudden it was like a huge gust of wind took the plane and just threw it to the right and picked it up from behind. The prop struck the runway and I pulled back to keep from tipping over I pulled all the way back on the yolk to keep it from tipping forward but it flipped it upside down. I released my seat belt and Wanda's and climbed out of plane. We were not hurt.

I called Milwaukee FSDO and talked to Joe Saunders right away.

I then called Alex Lemishko at NTSB reporting the accident.

After talking to Alex and telling him what happened, there was no injuries, he gave me permission to move the airplane. Dale & I pulled airplane over and pulled it with a payloader to my hangar.
