Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft substantially damaged - landed on right side. Tailboom separated from aircraft.
Impact marks on asphalt.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On December 13, 2017, at approximately 3:40 PM, I landed the Robinson helicopter R44 (N441ML) at Newark Heath Airport (KVTA) for fuel at the designated fueling area and to check weather for my next leg to KBKL.

The ramp personnel fueled the helicopter while I supervised from the ramp, and also checked the destination weather on Foreflight/Stratus, Aeroweather, and called and spoke to the owner of the helicopter for a PIREP since he was at or near KBKL. We agreed that I was to stay overnight at KVTA.

I advised the ramp personnel and they asked me to move the helicopter approximately 140' SE to the overnight parking area. After we attempted to move the aircraft on wheels, when that was unsuccessful, I removed the wheels and stowed them, inspected the helicopter and checked the area for physical obstructions.

At approximately 4:10 PM, I followed the checklist for startup, and applied normal amount of collective and other controls per my training. For unknown reason(s) to me, I suddenly found myself rolling to the right and falling to the ground.
