Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On my glider first solo, the pattern and landing was normal. However, when I landed, the glider was not straight, I attempted to correct with the right rudder, but I used the right rudder too much and the glider started turning to the right. I tried to slow down the glider with brake but I was not able to keep the glider on the runway. The right wing struck the corner of the hangar which spun the glider to the right about 140 degrees. Then, the left wing struck the hangar and the glider stopped. The cockpit and in front of fuselage was undamaged and I was unhurt. When the glider stopped, I exited the glider in a normal manner.
