Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Passenger landing gear sheared from plane, firewall bent and buckled. Lower cowl damaged. Forward fuselage fabric damaged to wing struts. Both wing struts bent and buckled. Right wing visible crinkling on bottom and top. Unknown if spar damaged. One prop blade bent at tip other shows signs of striking metal.

Vehicle that impacted plane. Front passenger side bumper, hood and quarter panel missing and in pieces

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On the afternoon of Jan 24th approximately 0:50 UTC after landing on Runway 17 and exiting left at the southernmost runway exit I turned to the north on the main taxiway headed to my hanger. My hanger is located near the north east end of the field. Upon immediately exiting I did have my navigation, landing, and anti-collision lights on. I turned my anti-collision lights off as they were creating a disco effect while taxing. I proceeded to taxi north and I noticed vehicle lights headed south bound on the same taxiway I was headed northbound. I recall thinking that airplanes have the right of way and he has to see me and after a few seconds he missed a turn-off the main taxiway to avoid me by traveling around the hail shed. I thought maybe he does not see me so I pulled the throttle to idle and began to cycle all of the lights that are located below the throttle to get his attention. Almost immediately he impacted the front passenger side of the aircraft shoving me backwards and off the taxiway.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Could of exited the taxiway, but I do not think there was enough time to execute that.
