Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Great flight from KPWA to KERV with a fuel stop in at KBWD. AWOS weather was variable and changing with each report. Upon touchdown on runway 12 a direct crosswind gust from right side initiated a ground loop, which caused the airplane to exit the runway into the grass. Outside of the shifting wind conditions the weather was perfect at KERV and the airplane was operating as designed. This was an unfortunate incident that didn't cause any injury to pilot, but damaged the airplane.

Departed KBWD at 1315 central time, took off with 26 gal of fuel from KBWD and landed in KERV with about 18 gal of fuel
