Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Landed on the runway and veered off the left side of the runway just beyond the 1000' markers hitting a taxiway sign. The most probable cause of this was more rudder and brake than was necessary due to footwear. (boots) Propeller and root of the right wing hit the runway taxi sign causing damage to the propeller, right wing at the root and underneath portions of the wing.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

February 5th 2018 at approximately 10:45 AM Eastern time i landed at KMHP on runway 280 with too much left rudder and/or brake possibly and the plane veered off the left side of the runway and hit a taxiway sign.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Operator - Footwear changed to a thin sole shoe so rudder pressure and brake combination could be better felt.
