NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On February 13, 2018 at approximately 10:20am. I was taking my 3rd client up for a helicopter hog hunt. We were located in the middle of a crop field in Wadsworth, Texas. We were traveling two miles south to Matagorda, Texas. I just put 5 gallons of 100 LL gas in my Aux tank to complete a safe 20 minute hog hunt with Mr. Kelley.

We took off and got approximately 40 to 50ft when Mr. Kelley's butt of his firearm was lodged in my cyclic. I yelled "Move your gun" 3 times and even tried to move it myself. He seized up and panicked, we immediately flew into the ground.

As soon as the helicopter stopped from the roll, I pulled fuel to shut off engine and immediately unbuckled us both.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

- A more thorough thorough safety briefing before flight.
- On ground engine off inside cockpit hunting simulation.
