Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft landed gear up, damaged prop, nose cone, and winglets.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed X26 in a Velocity XL RG that I had just purchased after having 6 hours of instruction. On the first approach to land at GA04 I determined that we were a little fast and high so I initiated a go around, raised the gear and applied full power. On the second approach a person on the ground was talking to me on the radio, I got distracted and failed to lower the gear. Because the second approach was a go around, in my mind I had already went through the GUMPS check.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Always do multiple GUMPS checks!
