Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

While flying (IFR) in the clouds at 5000ft the left engine surged several times. I shut it down. Shortly thereafter the right engine died. I then declared an emergency with center and exited the clouds at approximately 5-800 ft AGL. Picked a flat field and set up for a gear-up landing. I did not have enough altitude to clear the tree line at the end of the field. Not wanting to stall the aircraft I flew through the tops of the trees and into the field.

I had given line service an order to top the "in-boards" (200 gal of 100LL). They did not fill the order. This is my home based FBO and they have always executed my fuel orders in the past.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I could have visually checked the fuel after giving the FBO a fuel order and before take off.
