Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Rotor Blades destroyed, tail boom separation, cabin destroyed.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I was giving introductory flights to my Vietnam Helicopter Pilots Association chapter members.

On the 6th trip, I was letting the current member on board try his hovering skills.

I had the Aircraft at a 3' hover and intercommmed the VHPA member, "You have the Aircraft."

As the VHPA member took the controls, I started to remove my hands from the controls at which time the cyclic was shoved forward away from my hand. I reached for the cyclic to regain the hover but we impacted the ground before I could regain control.

I truly don't know if the VHPA member shoved on purpose, let it go, or hit the cyclic to move the cyclic forward to its stop.

RECOMMENDATION (How could this accident/incident have been prevented?)

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)

Not that I Am aware of. The FAA person stated he has photos of a broken pulley but it is unclear as of now if this had anything to do with the accident.
