NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Left LMT after getting ATIS and clearance from the tower about 10:15. Headed to A32 with the intention of doing some touch & go's, followed by a pleasure flight around the basin, then back to LMT.

Arrived at A32 around 10:30.

Made radio call and circled the field and checked the windsock. Indicated light & variable.

Flew right traffic to R16 for a stop & go.

Landed, stopped, then took off heading South. The air was not perfectly smooth, but a bit choppy at times.

Flew left traffic to R16 for 2nd stop & go.

Landed.

The next events happened very quickly.

On roll out after adding power for take off, I veered a bit to the right brought it back to center then was airborne, how far off the ground, I am not sure. Possibly around 10 feet? Was headed South, then all of a sudden was headed Southeast. The next thing I know is I'm going through sage brush then turned upside down. Noticed engine was off. I turned off the fuel, mags, radios. Exited aircraft. Found myself off the East side of the runway about 50-100 feet. No injuries. Suspect I went through a dust devil.

Someone witnessed this from the highway nearby, called 911. Doug Smith [REDACTED]

Sheriff Abner Weed was first responder on scene, then 2 CA state police, then someone from the volunteer ambulance came in a personal car since she lived nearby.

I spoke via conference call with the FAA & NTSB from the sheriff's phone. After answering questions, the aircraft was released to me to take home.
