From: William Pearson [REDACTED]
Subject: April 16 , 2018 airplane Incident statement
Date: Apr 17, 2018, 9:56:35 AM
To: Bill Pearson [REDACTED]

At about 14:10 local time, April 16, 2018 while landing at T94 (twin Oaks) I was unable to stop my Mooney M20R N6868 on the short runway. I ran off the Northwest end of the runway hitting a dirt embankment and severely damaging the airplane. There were no injuries to me or my wife Carol Pearson. We were the only occupants.

I believe the plane was affected by a large wind gust from a quartering tailwind which significantly increased ground speed at a critical time during touchdown. Too late to go around and too much ground speed to stop in the available runway distance..

It is common practice to land with some tailwind at T94 because the prevailing wind is from the Southeast but the preferred upslope runway is Northwest (300 degrees).

Even though I have flown many different aircraft in and out of T94 for 25 years, In hindsight, my error was underestimating the significance of the gusty wind conditions. This was a pilot judgement error causing an avoidable accident.
