Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Substantial damage to the entire frame and engine

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On May 7, 2018 at approximately 3:30pm, I departed Cavern City Airport (KCNM) in route to Farmington Municipal Airport (KFMN). I had topped off on fuel prior to departure. I was pilot in command of N632EP a Cessna 182Q. While in route the air was unstable and choppy, I had issues climbing. I managed to climb to 9,500 and maintain the altitude. As I was traveling north east of Albuquerque I had a sudden and violent drop in altitude followed by a down draft. I was at approximately 500 AGL, between two hills and was struggling to climb. I observed what appeared to be compact dirt followed by a cliff. I decided to land to avoid possibly falling off the cliff. As my wheels touched the ground, the plane shortly hit the nose of the plane and slid, eventually flipping over upside down. I exited the plane and called for assistance. I did not observe smoke or leaking fuel.
