Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft sustained heavy damage and no property damage.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

While attempting to land runway 19 at KBMQ the following incident occurred. Winds at the time were strong out of the SE, visibility at least 10 miles, and a high cloud layer, approx. 7-8000 ft with 2 persons aboard. As I touched down on the runway attempting a full stall landing with full flaps the wheels touched down and the airplane lifted back into the air with the left wing lifting higher than the right wing. I applied opposite aileron and rudder but with low airspeed they both were ineffective. I then applied power to try and fly out of it apparently too late. At that point the plane veered to the right heading toward the ground with the right wing striking the ground first causing us to cartwheel and stop abruptly off of the runway. We exited the aircraft afterwards with minimal injuries (bruises).

We departed Gillespie Co Airport (T82) at about 9:30 a.m. CST. We purchased breakfast at the diner, did our pre-flight check list, boarded aircraft and headed north to Burnet Airport (BMQ).

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

After considering the situation myself afterwards here are my thoughts on what corrective actions I could have attempted to better manage and control the situation. I could have used less than full flaps with a full stall landing or to have attempted a wheel landing both of which may have provided a higher touch down airspeed resulting in more aileron authority at the time of touchdown.
