Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Damage to most of the ultralight. Damage to pine tree and damage to a wooden deck of a home.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I arrived at Goose Creek airport (28A) Sunday May 27th at 11:30 am. Winds were south at 5 to 10 mph, the sky was clear. I filled the plane with gas and 2 cycle oil. It holds 5 gallons of regular gas. I completed a preflight check of the aircraft. Taxied to start of the runway and did my run-up check. Took off on runway 22 and climbed to about 1300 ft. msl. Flew NE from the airport about 15 minutes at 45 mph which is normal cruising speed. I started a 180 degree turn to the right, about halfway through the turn the plane began to descend rapidly and would not respond to controls. The plane struck a tree and spun to the right landing on the deck of a home. There were no personal injuries to me or anyone else. There was some damage to the deck. Upon inspecting the aircraft afterwards all controls were intact and operational. The accident happened around 1:30 pm.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Maybe flying at an higher altitude.
