Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Nose wheel collapsed. Prop strike.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Rented a plane from Aviator Air and flew solo to Hillsboro to practice touch and goes. I have flown out of KGPM several times and flown in that same plan before. First time to KINJ. Weather was not an issue.

Checked the AWOS as I got close to KINJ, wind was 10 gusting to 15, but pretty much straight down the runway. My first touch and go was fine and I stayed in the pattern for my 2nd. Came in too fast and bounced hard, should have hit the gas and gone around but have never done that before, so I chose to ride it out. The plane porpoised (there was a guy there at the sky diving shop who saw the last of it, but I didn't get a name) and after a couple more hard bounces the nose wheel collapsed and the prop hit the runway. The engine died.

I shut off the fuel and master, turned off the ignition and climbed out.

3 or 4 guys came out, pushed down on the tail (still had two good main tires) and pushed it to the FBO.
