Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Prop Strike, front end damage, bottom and gear damage

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On Monday 06/11/2018 I departed runway 28 at Plant City Airport PCM for Arcadia Municipal Airport with myself my wife and our 13 yr old Niece. I called final approach for runway 24 at Arcadia Municipal and made a successful crosswind landing with all three wheels on the ground. I continued the roll out and started braking with full control in the center of the runway then I noticed I was drifting to the left and tried to correct the drift with right rudder and right brake but no amount of input changed the pull left. As I approached the left side of the runway and went into the grass my plan was to slow down in the grass, stop get out of the plane and have it towed to the FBO to find out what was wrong. As I continued to slow down I noticed a ditch directly in front of me with no control to avoid it. The plane hit the ditch at approximately 45 mph causing damage to the aircraft.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

The failure to maintain a clear runoff from the main runway because of a ditch for the grass runway water runoff. The ditch should be engineered for drainage while also maintaining a safe runoff space for the main runway.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)

Was there Mechanical Malfunction/Failure? ☒ Yes ☐ No
(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)

Left main tire failed on landing.
