Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Upper wing, rudder, aerlion, engine.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

The flight was a pleasure flight over the Bitterroot valley. We climbed to about 7000 feet did a stall and turns then proceeded back to the airport for landing.

The approach was uneventful but on touchdown the ariplane drifted to the right. Tried to apply left rudder but for some unknown reason was not able to correct sufficiently to avoid running off of the runway. A ditch was at the side of the runway that forced the aircraft to flip over. We hit the ditch at about 25 MPH.
