Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

AIRCRAFT FLIPPED IN SALT WATER. Landing gear and Fuselage suffered Damage

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed ^{KFL}VFR at 1100 to reposition to X44. VFR 500ft along the shore line. Upon departure I failed to retract the landing gear and it remained in the down position for the duration of the flight. I flew the shoreline until reaching the Virginia Key VOR and proceeded on Right traffic for a water landing eastbound on governments cut. I proceed to turn final with the gear still in the down position all the way to the water. On touchdown the plane immediately started to go tail over and was the upside down Facing backwards. I proceeded then cut the ~~out~~ port side window and away from the plane, then a civilian boat picked me up and handed me to Miami-Dade Fire rescue.
