Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

No damage to property. Off field landing after losing lift. Large field (hayed withing last 2 weeks). Toward end of roll out (about 5 mph) glider struck unseen ditch in the middle of he field and ground looped. Tail struck side of ditch as it came around snapping tail boom about 3 feet forward of vertical stabilizer.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

1st day of Region I glider competition. 3/4 of the way around the 125 mile course, shortly after the passage of a weak frontal system, lift died. I had 10-15 minutes to establish a field for a suitable off field landing. I chose, what looked to be a perfect field, about 4000ft. x500ft. I chose this field because of its length and rows of hay bails that had been recently harvested and stacked along the side of the field. Set up was a downwind, right base, and final clearing power lines on the end of the field. Landing speed on touchdown was about 40-50kts.....tail first full stall landing followed by an immediate roll out . Full spoilers and breaks were applied. Field had a slight downhill gradient that could not be seen from the air. Toward the end of the roll out the glider struck a ditch that ran the width of the field.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

In all honesty, in the same situation I would have done exactly the same thing. Field choice, landing pattern, final airspeed and touch down was as good as it gets. I'm not sure I could have done anything that would have changed the final result. The nearest airport from my position, when I ran out of lift, was about 20 miles away (Post Mills).
