Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

left gear, both wings. Fuselage bent. wind shield cracked Elevator damage. Tail wheel damage

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

I departed 6b4 around 9 am to NY23 to perform 2 full stop landings then depart north to 1NK7 to land full stop then departed for our family Farm in Harrisburg NY .

Approach to landing area from the south straight in for a practice run to go around. Followed normal left hand pattern to 3/4 mile final. Trimmed to 70 MPH then 60 Mph then 50 MPH prior to touch down . At around 5 feet off the left wing raised causing the right to hit the ground twisting to the right landing sideways on the left wheel. I exited the aircraft and turned off power and fuel . My uncles came over to assist and drain approx. 12 gallons from the right tank and 6 from the left then fold the wings ,loading on the trailer and stored in our building.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I little more speed and/or hit the power to go around.
