NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

02 AUG/8

After arriving at 452 after a noneventful flight from PHU I landed on runway 25 up on the main. There was no wind and the initial roll out was straight and smooth. When we slowed down to where I could not hold the tail up anymore, I landed the tail wheel and the airplane swerved sharply to the left. Full right rudder and full right brake would not stop the swerve. As the right wheel left the pavement and dug into the dirt the right gear leg folded under the airplane and the right wing tip hit the ground. We stopped there and tipped up on the nose. I shut everything down and we opened the cabin door and climbed out. As I write this the airplane is still tied down at 452.
