Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On July 20, 2018 I was approaching Malden Airport for fuel. Everything was going well I was on final approaching the runway everything was still going fine. As I crossed the apron of the runway I hit some turbulence with flaps down and starting to flare to turbulence instantly stronger, felt like the bottom dropped out the bottom felt like an air pocket. Struck the runway hard causing a prop strike.
