NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

As per your instructions Mr. Hicks, I have pasted my statement to Mr. Clamp of the FAA as to what happened. I am stilled baffled. My guess is that a small gust of cross wind must have picked up the right wing, pushing the left wing into the runway. I was only a foot or two off the runway when it happened.

Mr. Clamp,

I sent, by snail mail, a copy of my log book showing when my last flight review was and an RV check out. You should get it in a few days. At the bottom of the page I wrote my certificate number, but here it is again:

As far as a statement goes, I am still baffled as to how this happened. I had done two landings and then purchased some fuel at KLQK that day. I decided to do one more landing before heading back to KAVL where I am based. My approach was as usual and as I started to flare out the plane seemed as if it was being pushed down with the left wing hitting the runway and then bouncing on to the right main and incurring a prop strike. It shortly came to a stop just off the runway to the right. The whole thing seemed like it took less than five seconds. I just sat there completely bewildered as to what had happened. I still don't know.

I will await the assessment of you and your staff, and NTSB. If you need any more information from me, please let me know.

Respectfully,

Will Durant
