

NATIONAL TRANSPORTATION SAFETY BOARD PILOT/OPERATOR AIRCRAFT ACCIDENT/INCIDENT REPORT

This form to be used for reporting civil and public aircraft accidents and incidents

BASIC INFORMATION

Accident/Incident Location

Nearest City/Place: Oak Harbor State: WA

ZIP: 98277 Country: USA

Latitude: 48.15.06 N Longitude: 122.40.25 W

(Enter in decimal degrees or degrees:minutes:seconds)

Accident/Incident Date/Time

Date: 07/27/2018 Local Time: 11:30
mm/dd/yyyy

Time Zone: Pacific

Collision with Other Aircraft: ☐ Midair ☐ On-ground ☒ None

AIRCRAFT INFORMATION

Registration Number: N152LT

Manufacturer: Cessna

Model: 152

Serial Number: 15285262

Year of Manufacture: 1981

Amateur-Built: ☐ Yes ☒ No If Yes: ☐ Kit/Plans ☐ Original Design Make: _____

- ☐ IFR-Equipped and Certified
☐ Commercial Space Flight
☐ Unmanned Aircraft

Maximum Gross Weight: 1675 lbs

Weight at Time of Accident/Incident: 1380 lbs

Number of Seats: 2 Flight Crew Seats: 2

Cabin Crew Seats: _____ Passenger Seats: 0

Number of Engines: 1

Category of Aircraft

- ☒ Airplane
☐ Balloon
☐ Blimp/Dirigible
☐ Glider
☐ Gyroplane
☐ Helicopter
☐ Powered Lift
☐ Rocket
☐ Ultralight
☐ Unknown

Type of Airworthiness Certificate

(Check all that apply)

Standard

- ☒ Normal
☐ Aerobatic
☐ Balloon
☐ Commuter
☐ Transport
☐ Utility

Special

- ☐ Restricted
☐ Limited
☐ Provisional
☐ Special Flight
☐ Experimental
☐ Special Light-Sport
☐ Experimental Light-Sport

- ☐ Certificate of Authorization or Waiver (COA)
☐ None ☐ Unknown

Landing Gear

(Check all that apply)

☐ Retractable

- ☒ Tricycle ☐ Tailwheel
☐ Amphibian ☐ High Skid
☐ Emergency Float ☐ Skid
☐ Float ☐ Ski
☐ Hull ☐ Ski/Wheel
☐ Other Launch/Recovery System
☐ None ☐ Unknown

Engine Type (Select one)

- ☒ Reciprocating ☐ Liquid Rocket
☐ Turbo Shaft ☐ Solid Rocket
☐ Turbo Prop ☐ Hybrid Rocket
☐ Turbo Jet ☐ None
☐ Turbo Fan ☐ Unknown
☐ Electric

Fuel System Type (Reciprocating)

- ☒ Carburetor ☐ Fuel-Injected

Engine	Engine Manufacturer	Engine Model/Series	Manufacturer's Serial Number	Date of Mfg. mm/dd/yyyy	Rated Power ☒ Horsepower or ☐ lbs of Thrust	Total Time (hours)	Time Since: Inspection (hours)	Overhaul (hours)
Eng. 1	avco lycoming	0 235 I2c	RL-22194-15		110	8195.8	27.6	1190.2

Eng. 3								
Eng. 4								

Last Inspection Type

- ☐ 100-Hour ☐ Continuous Airworthiness
☐ AAIP ☐ Conditional Inspection
☒ Annual ☐ Unknown

Date Last Inspection: 07/17/2018
mm/dd/yyyy

Airframe Total Time: 14,057.7 hrs

hours measured at (Select one)

- ☐ Last Inspection ☒ Time of Accident/Incident

Type of Maintenance Program (Select one)

- ☒ Annual
☐ Conditional (Amateur-built only)
☐ Manufacturer's Inspection Program
☐ Other Approved Inspection Program (AAIP)
☐ Continuous Airworthiness
☐ Other, specify: _____

Description of Fire Extinguishing System

- ☒ None
☐ Specify: _____

Propeller 1

- ☒ Fixed Pitch
☐ Controllable Pitch
☐ Ground Adjustable

Manufacturer: sensenich

Model: 72ck56-0-54

Propeller 2

- ☐ Fixed Pitch
☐ Controllable Pitch
☐ Ground Adjustable

Manufacturer: _____

Model: _____

ELT Installed: ☒ Yes ☐ No

If Yes:

ELT Manufacturer: _____

Model or Part No.: _____

TSO No.: ☐ OC91 (121.5 MHz) ☐ OC91a (121.5 MHz)
☐ OC126 (406 MHz)

Was ELT still mounted in aircraft? ☒ Yes ☐ No

Was ELT still connected to antenna? ☒ Yes ☐ No

Did ELT Activate? ☐ Yes ☒ No

If activated:

Did ELT Aid in Locating Aircraft: ☐ Yes ☒ No

If not activated:

- Indicate Reason: ☐ Impact Damage
☐ Fire Damage
☐ Battery Expired/Damaged
☒ Unknown

Additional Equipment (Check all that apply)

- ☐ ADS-B
☐ Airframe Parachute
☐ Angle of Attack Indicator
☐ Autopilot
☐ Data Recorder
☐ Electronic Flight Bag or Handheld Device
☐ Electronic Multifunction Display
☐ Electronic Primary Flight Display
☐ Handheld GPS
☐ Heads Up Display
☐ Onboard Weather
☐ Satellite Tracking Device
☐ Stall Warning System
☐ Video Recording Device
☐ Other, Specify: _____

DAMAGE TO AIRCRAFT AND OTHER PROPERTY**Aircraft Damage**

- ☐ None ☒ Substantial
☐ Minor ☐ Destroyed
 ☐ Unknown

Aircraft Fire

- ☒ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Fire at Unknown Time
☐ On-Ground ☐ Unknown

Aircraft Explosion

- ☒ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Explosion at Unknown Time
☐ On-Ground ☐ Unknown

Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Front Wheel severed off of plane, Propeller bent and right wing damaged.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

First thing I remember was when we landed at Oak Harbor I wanted to go to the bathroom so I was searching around the place it's a small little Airport. after I get back from the bathroom I come back to the plane and Craig is signing something on my endorsement in my log book and at first, I wasn't really worried too much about it until I saw the word solo. in my mind, I didn't think I was going solo because I've never been to this airport. The Landing Strip had a dip. so I was very nervous and knew I wasn't ready to solo here after that my CFI looked over to me and said just do everything that I taught you he then shut the door and I begin recording on my camera and the audio device he looked over at me and said to not worry too much about the camera. he told me that I will be able to hear him on the radio but I didn't. since it was an uncontrolled airport I was not familiar with talking on the frequency since all of my CFI have done all the talking every time we went to an uncontrolled Airport. as I begin to Back Taxi to runway 25 I look back and he wasn't looking at me. I even said on film that my CFI didn't even look at me not even supervising me when I was back taxing which made me really nervous. At this point, I've done all my checklist and was ready to take off still didn't hear CFI on the radio. told on the Oak Harbor traffic frequency that I was ready for takeoff. I set take-off power everything was going fine. I look to my left again and Craig still not looking at me. I'm beginning to climb on the upwind everything's in good shape, turn on to crosswind everything's going well here. as I began to turn on downwind I noticed I was too close to the runway, so I began moving to the right to give myself some space. I approached Midfield beginning all of my checks and started my descent, turn onto base noticing I was going a little fast, quickly corrected myself. I was on Final noticing I was getting too low too fast I added power. as I got close to the runway and knew I was going to make it so I reduced power and let the plane Glide. Got over the fence and glided my way down. I noticed the first bounce was rough (main wheels plus nose wheel hit all at once) then came the second bounce. I knew something was up but at the moment I froze. The 3rd is when I started to panic. Since the runway had a dip in the tarmac I started to gain AirSpeed again and my nose hit the runway at an angle. I skidded across the runway and got out of the aircraft as fast as I could. At Oak Harbor, there were at least 5-6 people who used to work for the FAA as an examiner and such and asked me why I soloed here in the first place. Most of my take off and landing practices were on Paine Field where I was more comfortable in a controlled Airport.

I have my video and audio of the incident from the beginning we left Paine Field till my incident on Oak Harbor. I video all my training flights to learn from it. The video and audio are mostly synched, but some will have voice only because of the battery on the video went dead. [REDACTED]

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

CFI Craig Van Genderen: I would have done more training to address the changes in performance due to less weight once the instructor leaves the plane.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)

ADDITIONAL INFORMATION (Please type or print in ink)

Use this space if additional space is needed for any answers.

CFI Craig Van Genderen:

Joshua and I went to KOKH because the winds were more favorable, than KPAE.

I did not go to KOKH specifically planning to solo Joshua, although he had been flying well and there were discussions between myself and the other 2 instructors he had been flying with that he was close to being ready to solo.

We did 5 laps around the pattern at KOKH, his last 3 approaches and landings were solid. He handled the pattern, the radio and had stabilized approaches. He landed solidly and on the center line.

He seemed confident, excited and nervous when I spoke with him about soloing, which is typical for a student facing a 1st solo.

We had been flying for an hour, still needed to return to KPAE, and had started with just over 14 gallons, so I suggested he go once around the pattern and come back and pick me up. I did not sense any resistance to the plan. Rather, he seemed enthusiastic.

I had the hand held radio and supervised the flight from the side of the runway. Joshua's pattern was fine. He landed a bit hard, bounced and over corrected forward with the yoke. The nose gear collapsed.

Looking back I believe the difference in weight after I got out of the plane was a contributing factor. It appeared to me that he landed using the control inputs he had made before and the plane did not settle as he was used to.

I weight 235lbs. We had spoken about the difference in the performance and reaction of the plane once I got out. Still in hindsight I would have done more training to address this.

This kid is sharp, enthusiastic and able. I hope he keeps flying.

Notes:

1) I believe the ELT did not activate because there was not enough impact on the section of the tail to activate it.

2) My information is filled out in crew member 2 spaces, but to be clear I was supervising from the ground, not the right seat.

3) When I tested the handheld radio in the morning it transmitted fine. I believe the batteries ran low, because after Joshua taxied out at KOKH I could hear but didn't seem to be able to transmit. I was probably pulling the batteries out of my headset to put in the radio when he was wondering why I wasn't looking up.

4) A dozen or so people help roll the aircraft off the runway. One guy said he had worked with the FAA, a couple other guys told me that was not true. There was no examiner either to my knowledge. There was a CFI who said he typically soloed students on runway 7.

5) I am still working on getting the year the engine was manufactured and the ELT information. I will forward it as soon as I have it.

I HEREBY CERTIFY THAT THE ABOVE INFORMATION IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE
