

NATIONAL TRANSPORTATION SAFETY BOARD PILOT/OPERATOR AIRCRAFT ACCIDENT/INCIDENT REPORT

This form to be used for reporting civil and public aircraft accidents and incidents

BASIC INFORMATION

Accident/Incident Location

Nearest City/Place: GXY, Greeley /Weld County Airport State: CO

ZIP: 80631 Country: USA

Latitude: N40:25:68 Longitude: W104:37:95

(Enter in decimal degrees or degrees:minutes:seconds)

Accident/Incident Date/Time

Date: 08/04/2018 Local Time: 11:30

mm/dd/yyyy

Time Zone: mountain

Collision with Other Aircraft: ☐ Midair ☐ On-ground ☒ None

AIRCRAFT INFORMATION

Registration Number: N56LK

Manufacturer: Lothar Klingmuller

Model: RV-6A

Serial Number: 123

Year of Manufacture: 2001

Amateur-Built: ☒ Yes ☐ No If Yes: ☒ Kit/Plans ☐ Original Design Make: Vans Aircraft

☐ IFR-Equipped and Certified

☐ Commercial Space Flight

☐ Unmanned Aircraft

Maximum Gross Weight: 1500 lbs

Weight at Time of Accident/Incident: 1300 lbs

Number of Seats: 2 Flight Crew Seats: 2

Cabin Crew Seats: Passenger Seats:

Number of Engines: 1

Category of Aircraft

- ☒ Airplane
- ☐ Balloon
- ☐ Blimp/Dirigible
- ☐ Glider

Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

engine & prop damaged, twisted fuselage, wing damage, undercarriage damaged

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

I departed FTG (Front Range Airport, Denver, CO) for GXY (Greeley , CO) at approximately 10:50 a.m. on 8/4/2018 with a friend, Thomas Kurlinski in the right seat. we were going to have lunch at Greeley and I wanted to fly this aircraft from the left seat for the first time. The builder of this aircraft had put the engine instruments on the far left so that one could not solo tthe aircraft easily from the right seat, so I wanted to practice flying from thie left seat. I did not anticipate any problems with this plan since I already had 29 hours and 90 landings from the right seat.

The weather was clear, 80 degrees and light and variable winds. The terrain was essentially flat throughout the flight. I entered the left hand traffic pattern at about 11:20 a. m. for runway 10. I encountered a slight porposing action on final, so I went around to try again.

The second pattern was normal until I approached the overrun. I encountered an unusual amount of sink. I added power and applied too much back stick. I overcontrolled the aircraft to a nose high position. The aircraft stalled , and the nose dropped striking the ground at a steep angle. The aircraft stopped about 1,500 feet down the runway. I called the unicom for help, and an ambulance arrived in about ten minutes.

My passenger had cuts and bruises, which turned out to be minor. I sustained bruises and a more serious fractured vertibre from which I am still recovering.

The aircraft was seriousl damaged.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

The RV-6A is a great high performance airplane. As advertised, The controls are very sensitive, and the landing stall has a sharp nose drop.

I did not anticipate that these characteristics, plus the different look and feel of flying with the left hand rather than the right would be so demanding.

Add my overconfidence. I should have done one or two dual flights with a qualified RV-6/7 instructor when changing seats. This crash was entirely my own fault. pilot error.

The aircraft had no performance or mechanical issues.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)

Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No

ADDITIONAL INFORMATION (Please type or print in ink)

Use this space if additional space is needed for any answers.

About 2 weeks after the accident a representative of Beegles Aircraft Services in Greeley called me and asked me what I planned to do with the aircraft. He said it was on a pallet in their yard with a cover. They offered to move it to Front Range for a fee. They also offered to buy the aircraft as is & they would do all the paper work, or whatever.

At this point I was in pretty bad shape physically. It was before I had been able to face the NTSB report and it didn't enter my mind. I did know that I couldn't deal with the wreckage for some months, because of my physical condition, and I was not capable of repairing it. I felt pressure to do something.

I accepted their offer to buy the aircraft, and they sent a representative to my home with the bill of sale. The Aircraft was purchased in the name of B.A.S. Parts and Sales which is located with Beegles.

I realize now that I made a mistake in not following the NTSB regulation, and I accept that responsibility, however, I am sure that an aircraft defect did not have any bearing on the accident.

I HEREBY CERTIFY THAT THE ABOVE INFORMATION IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE
