Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Landing gear separated from airframe, propeller shattered, damage to engine and engine mounts, cowling, belly, right wing skin and internal components, possible damage to left wing internal components and lower surface. Photos supplied to NTSB representative, Kate Benthoff [REDACTED]

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Flight departed KFTG at 1100 MDT for a round-robin cross-country to 07V (La Veta, CO) thence to 5V6, arriving at about 1315 MDT. The preceding flight was normal. 5V6 was examined from the air by a low pass and appeared rough but serviceable. A normal approach to runway 26 and 3-point landing was accomplished. Upon landing the surface was found to be extremely rough and weedy with the weeds much taller than apparent from the air. The pilot believed that a departure was possible, selected an abort point and taxied to the east end of runway 26. A takeoff was initiated, acceleration was somewhat less than normal due to the rough surface and vegetation but was believed to be sufficient. Upon reaching the abort point at just below liftoff speed, the pilot realized that the remaining runway length had been misjudged and a runway overrun resulted. The airplane departed the west end of the runway, crossed a section road, passed through a single-wire barb wire fence and came to rest in a vacant farm field.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

This airport is in serious disrepair and according to local residents has been effectively abandoned for several years. The airport should be closed, removed from charts and other documents and closed markings placed on the runways.
