NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Flying N230DE was performing touch & goes at London/Corbin Airport (KLOZ) runway 24, at approximately 8:00 pm. After touching down, changing flaps to 10', and going to full throttle, the plane's speed was increasing and after a couple of seconds it started to drift to the left. I increased right rudder and it continued to drift although I was increasing right rudder (& shut the power down). The plane left the runway at a taxi way intersection into the grass. I spotted a deep drainage ditch and immediately went to full throttle just long enough to cross over it rather than go into it. When I cleared the ditch the front landing gear came off (upon contact with the ground) and the nose of the plane dug into the ground and stopped.
