Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Prop strike, Plane flipped. Damaged tail section, broken wind screen, broken sun roof, damaged wing spars, bent fuselage,

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I was hunting on a bench that i had landed on 3 times loaded with gear. The bench was up hill and small bushes and bumps. We hunted for 4 days. I departed around 2pm with a load of gear back to talkeetna, dropped it off and went back about about 3pm. When i came back i was empty with minimum fuel, the tail was really light. As i landed uphill i applied slight brake and hit a bush or a bump on the ground causing my tail to come up and prop to hit the ground and the plane flipped upside down. My ELT was going off but due to the flip my antenna broke and never received rescue from the ELT. I had to call on a SAT phone for rescue from Talkeetna Air Taxi.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

While on short final i was a little faster then i wanted to be and i should have done a go around but didnt. That caused me to land faster then i wanted on a short strip. As well as break more then i have any other time.
